ABOUT

Senior Software Engineer with 20+ years of experience building scalable, accessible, and high-impact web applications. I specialize in the React/Next.js ecosystem and TypeScript, with a strong track record of delivering WCAG AA/AAA compliant products for 15+ U.S. financial institutions, including Pennymac, SoFi, Citizens Bank, Fifth Third Bank, Capital One, and others.

I'm a heavy AI practitioner, actively integrating AI-assisted development workflows to accelerate delivery, improve code quality, and enhance team productivity.

Originally starting my career as a graphic designer, I bring a strong visual instinct and product sensibility to every technical decision — balancing engineering excellence with usability and design clarity.

Beyond the code, I'm highly communicative and collaborative, with extensive experience working within and across cross-functional teams. I value clear communication, shared ownership, and building engineering cultures where knowledge flows freely and teams ship with confidence.

EXPERIENCE

Senior Software Engineer — Jul 2014 – Present
Vast.com · HomeStory (rebranded 2020)

- Part of the core team that built the HomeStory platform from the ground up — a large-scale multi-tenant real estate platform now serving 15+ financial institution partners (Pennymac, SoFi, Citizens Bank, Fifth Third Bank, Fidelity, LendingTree, RBC, and more), built with React, Next.js, Module Federation and AWS
- Built the HomeStory Admin from inception — internal tooling for partner onboarding, site configuration, content management and feature orchestration
- Delivered WCAG AAA/AA compliant partner integrations across all HomeStory platform editions for major US financial institutions and fintech leaders
- Worked on LaunchDarkly feature flag system and AWS CloudFormation pipelines across multiple client products

Lead UI Designer & Frontend Developer — Apr 2012 – Jul 2014
High Tech Engineering Center

- Led UI design and frontend development for enterprise applications
- Established frontend architecture standards and reusable component systems

ACCESSIBILITY

WCAG AAA

WCAG AA · ARIA

Web Designer / Frontend Developer

2005 – 2012

Eutelnet · Tehnicom Solutions · Wireless Media · Infonetgroup

- Built mobile portals and websites for regional telecoms including Qtel (Qatar) and Nawras/Ooredo
- Progressed from print and graphic design into interactive web, mobile portals and e-commerce

Freelance Frontend Developer

Various

Independent

- Built TheScope — a targeted content delivery platform
- Built Fr8Hub — freight management software
- Frontend development for Celsius Network crypto platform
- React/Redux developer for HERO Health

NOTABLE PROJECTS

HomeStory — Multi-Tenant Real Estate Platform

Involved from inception as part of the core team — large-scale microfrontend platform (Module Federation) serving 15+ financial institution partners including Pennymac, SoFi, Citizens Bank, Fifth Third, and more.

React · Next.js · AWS · WCAG AA

HomeStory Admin

Built from the ground up — internal tooling for partner onboarding, per-partner site configuration, content management and feature flag orchestration across all platform editions.

React · Next.js · Node.js
